BPW Club Set Up Scholarship Aid Program

The Pahokee Business and Professional Women's Club met this week to complete plans for a new Scholarship Aid program which will be financed by the club annually as funds permit.

The program calls for financial assistance to a senior girl who will graduate from Pahokee High School for furthering her education either on a college level or a specific training of her choice such as nursing school, beauty school, business school, etc. Applicants may contact Mrs. Doris Lane, Dean of Students at the high school or a member of the Guidance Department for further information after March 20th to secure the necessary forms to complete. Upon completion of the forms, the applicant will turn them in to Mrs. Lane for delivery to the president of the BPW Club for study by the Scholarship committee for the club.

Scholarship aid will be given on a one year basis only. However, application may be made for additional years after the successful completion of each year. Such applications will only be considered if prior application to the college or school the student is attending has failed to produce the necessary assistance. It is felt that most students can apply successfully for such assistance if their work is satisfactory and that a return application to the BPW Fund will not be necessary.

In other business, club members discussed plans for their annual installation banquet which will be held in May and elected a nominating committee to bring a slate of officers for the coming year to the membership for election in April.

Senator Thomas Plans New Legislation

Legislation to give Florida a strong rehabilitation program which will help juvenile offenders prepare for useful and crime-free lives will be introduced in the 1967 Legislature, Jerry Thomas, Lake Park, said Monday.

Thomas, a member of a joint state-house interim committee on juvenile delinquency, said recommendations are being drawn and will be presented to the legislature and also Governor Kirk.

He said the recommendations are based on findings of a series of hearings held throughout the state and a survey made by J. Hillis Miller Health Center at the University of Florida. Both reports have pinpointed the failures of the state to meet its responsibilities in the training school program, Thomas added.

"I was shocked to learn there is not a single psychiatrist on the staff of the entire division of child training," Thomas said. "There are 1960 boys and girls, ranging in age from 10 to 17, and the state has not provided for qualified personnel and facilities. It is no wonder that 36 per cent of our youngsters are returned to the schools and as high as 60 per cent of adult criminals have juvenile records."

Thomas said the training school after the life of an adolescent from one of chronic criminal behavior to one of a productive useful life outside of an institutional setting. He pointed out that Florida is 38 in the nation in per capita expenditure for public training schools and 43 in the nation in the ratio of personnel in the training schools.

"A life of criminal behavior leads to a great deal of human suffering and wastage," he said, "and it also is a heavy burden on the taxpayers who pay the cost for the construc-

In Aid to the Disabled.

In addition, 382 children received service during the month, 231 of whom were in foster homes. The total state and local cost for direct child care was \$12,438.71.

There were 10 adoption petitions studied for the Circuit Court. These are children placed in homes in dependent of service through a licensed child placing agency and the Welfare Board is responsible according to law to make these reports to the court.

tion and the operation of facilities to house these youngsters, and this could become a never ending problem."

Thomas said acceptable standards for personnel recommends 150 youngsters for each training school, while there are 800 at Marianna, in West Florida, which is the second largest in the nation. Further, he said, the recommended ratio for social workers is one for 30 children. There are two for the 150 girls at the Ocala Girls' School and only one for the 800 boys at Marianna.

Currently, the county school system's Audio-Visual Department is receiving more than 2,420 requests per month from the county's schools for films and loan of equipment.

The report also states that in January, the department "produced over 600 transparencies for use in the schools," and that "since the beginning of the present school year, 220 visitations have been made by the Audio-Visual Department's utilization specialists.

The report discloses that at this time the department "has orders awaiting processing for over 3100 transparencies," and it "will produce these visuals, which have a commercial value of about \$4,500, for approximately \$950."

A message from the Treasury of a free people

How to speak out for freedom today

Free men have never gone in much for silence. Even before the first thirteen States became United States, men were speaking for freedom loud and clear.

Today Americans speak out for freedom many ways—in Congress, in local government, in neighborhood activities. Some speak out for freedom in other languages, in other lands. And millions of Americans speak out for freedom every time they buy U.S. Savings Bonds.

Every Savings Bond you buy is an investment in freedom. While you're saving money for your

own family's future, you're helping Uncle Sam tend to the business of keeping men free today.

Perhaps you don't speak out for freedom in the same tone of voice when you buy a Bond as Patrick Henry did in his famous speech. But you speak every bit as surely. And every bit as proudly.

Why not speak out for freedom now? Buy Bonds at the bank or on the Payroll Savings Plan where you work.

Keep freedom in your future with
U.S. SAVINGS BONDS

Now—U. S. Savings Bonds Pay More Interest 4.15% when held to maturity

Higher interest on the Bonds you already own, too!

U.S. Savings Bonds are a better way to save than ever

Because now all Series E and Series H Bonds bought after December 1, 1965, will earn the new, higher interest rate of 4.15% when held to maturity. That's only 7 years for Series E—9 months quicker than before. All H Bond interest checks will be larger beginning in June 1966.

And your outstanding Bonds will earn more, too, from now on. So, you don't have to cash in your present Bonds to get the attractive new rate.

Ask about buying Bonds where you work or bank. For America's future. And yours.

"Today, none of us can remain aloof on the sidelines."

Today, above all, is a time for all Americans to rededicate themselves to the spirit that animated the Minutemen of Concord—who serve as a symbol of the Savings Bond program. For today, as at the founding of our nation, it is freedom which is again at stake. Not all of us are called upon to fight in the jungles of Vietnam, but while our men are there, in the front line of a distant land, none of us can remain aloof on the sidelines. We must all do our share—in every way we can—to support our men in Vietnam. One sure way is open to all Americans through the Savings Bond program.
